This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Groups I and II lack corresponding special technical features, for example, claim 1 of group I does not include the sorbent or mercuric oxide recited in claim 15 of group II, and claim 15 of group II does not recite the substrate and catalyst particles recited in claim 1 of group I.
